The skills I use most in my job...Data analysis

- Research

The most interesting thing I've worked on in my career so far...Did a presentation for the women in tech group at my last company on why you should always make sure to not hide your femininity

What inspired me into digital and tech...I love finding out innovative ways to use tech to support a business' transformation programme

My educational background is...BA Hons in English and French from Uni of Liverpool. GDL from MMU

What advice I'd give to girls thinking about a career in digital and tech...Go for it! Tech is super exciting, not as nerdy as you think and there's so much opportunity for young women with the right attitude
