ANA ROMANOV

Job: Platform Engineer

Company: LHV Bank

I design, deploy, and manage cloud-based infrastructure and services. I optimize cloud environments for scalability, security, and cost-efficiency. I configure and maintain cloud platforms, automate processes, and implement CI/CD pipelines. I troubleshoot issues, ensure high availability, and collaborate with cross-functional teams to deliver reliable and scalable cloud solutions.

Agile	Sunny	Resourceful

The skills I use most in my job...AWS

- Cloud
- Terraform

- CI/CD
- Communication

The most interesting thing I've worked on in my career so far...I led the development of a comprehensive logging and monitoring solution on AWS. Leveraging OpenSearch and Grafana, I built a scalable and centralized logging system, enabling real-time visibility into system performance and security. The solution empowered the team to proactively identify issues and optimize resources for enhanced operational efficiency.

What inspired me into digital and tech...I've always been fascinated by the ever-evolving nature of technology and its impact on our lives. Witnessing the transformative power of digital innovations and their ability to solve complex problems inspired me to pursue a career in the digital and tech realm.

My educational background is...I didn't start off in the IT world, but I've got a unique journey to share. After rocking it in administrative roles, I decided to switch gears and dive headfirst into the AWS re/Start program. Through intensive training, I gained hands-on experience in AWS cloud technologies from infrastructure deployment to automation and security. Now, I'm a proud cloud engineer, ready to take on exciting challenges and keep growing in this ever-evolving field.

What advice I'd give to girls thinking about a career in digital and tech... To all the girls considering a career in digital and tech, my advice is to embrace your passion and curiosity. Don't let stereotypes or societal expectations hold you back. Believe in your abilities, be fearless in pursuing your goals, and surround yourself with a supportive network. The industry needs you!
