# FIONA H

**Job:** Software Engineer

**Company:** -

I develop, support and maintain software, both as an engineer and as a team lead. I also maintain and fix the development environments the applications are run on.

| Determined | Friendly | Helpful |
|---|---|---|

**The skills I use most in my job...**system administration tools

**The most interesting thing I've worked on in my career so far...**Having joined on a graduate scheme I have had the opportunity to lead on several projects and create unique solutions to difficult problems for customers.

**What inspired me into digital and tech...**I've always been fascinated with computers and the software that we use on a day to day basis. Being able to use my skills to help create something that can help others in their day to day work, is why I wanted to get into Software Engineering.

**My educational background is...**I studied Mathematics at university, before joining a graduate scheme that converted STEM graduates into Software Engineers.

**What advice I'd give to girls thinking about a career in digital and tech...**Don't just think about the

obvious path, there are many paths to the same goal.
