

JENGIRA BEGUE

Job: Content Manager

Company: CloudGuard AI

I am a creative marketer working in tech, who specialises in content creation & brand development. Whether it's quirky or serious storytelling, I'm all about translating tech topics into digestible content.

Passionate

Offbeat

Creative

The skills I use most in my job...Creativity

- Communication
- Project Management

The most interesting thing I've worked on in my career so far...One of my career highlights has been leading Distology's creative entries to secure Distributor of the Year 2022 and Security Distributor of the Year 2023 at the CRN awards, as well as a 'Highly Commended' at the 2023 CRN Sales and Marketing Awards.

What inspired me into digital and tech...Accidentally fell into it during a career change!

My educational background is... Film and Media BA (Hons) - Manchester Metropolitan University
PGCEi - Nottingham University (online)

What advice I'd give to girls thinking about a career in digital and tech... It might seem scary, especially if you think you have to be "technically minded". But a career in tech is for everyone, and you will find something that fits you.
