The most interesting thing I've worked on in my career so far...Coming back from Maternity Leave in 2022 and taking on a promotion to the UK Tech Director.

What inspired me into digital and tech...The market was always going to be forward thinking and full of opportunity given it reaches in to everyone's daily lives.

My educational background is...I studied Politics and History at Newcastle University.

What advice I'd give to girls thinking about a career in digital and tech...First of all - DO IT! It is such an exciting sector to be in - and one where the real impact of females has not yet been truly felt.
