I lead my team and deliver software products

tenacious	Sincere	Independent

The skills I use most in my job... Leadership
• golang/ c++
• technical knowledge
• planning and management

The most interesting thing I've worked on in my career so far...I once debugged why a train ran in the opposite direction in field.

What inspired me into digital and tech...I like problem solving. I love engineering.

My educational background is...B Tech in Information Technology

What advice I'd give to girls thinking about a career in digital and tech... Go for it. There is no better win than seeing people use the thing you created.
