The skills I use most in my job...English/Literacy skills

The most interesting thing I've worked on in my career so far...Building a new profile and beginning to work it up & the opportunity to attend different events.

What inspired me into digital and tech...Ultimately the digital world is how everybody is going to work and I would love to be part of that.

My educational background is...School & College.

What advice I'd give to girls thinking about a career in digital and tech...Being able to be the part of the something that is eventually going to change the world is amazing, why wouldn't you want to be

part of it?
