MONALISA MATHUR

Job: Consultant

Company: GlobalLogic UK&I

I am a Tech Consultant(.Net). Primarily which contains making web applications, webpages, mobile apps. Handling Databases. Front end, Backend REST Apis.

Optimistic	Passionate	Selfmotivated

The skills I use most in my job.....Net - A programming language which helps you to create a web application etc.

• Databases- SQL, MongoDB, NoSQL

• Front End - Typescript,Javascript,JS.

• Forge Rock- Authentication Authorisation

The most interesting thing I've worked on in my career so far... Working on a cryptocurrency project during my tenure at my previous company was an exhilarating experience. The world of digital currency is rapidly expanding and being a part of it was truly rewarding.

What inspired me into digital and tech...I was inspired to enter digital and tech fields due to a passion for technology, a love for problem-solving, the promise of career opportunities and high earning potential, the chance to innovate and create, the desire to make a positive impact on society, influential role models, exposure to tech.

My educational background is...I have a technical background and completed my Bachelor's degree in Electrical Engineering. I also have a Post Diploma in Advanced Computing, and I am currently pursuing an online Master's degree in Data Science from the University of Edinburgh.

What advice I'd give to girls thinking about a career in digital and tech... For girls considering a tech career: Follow your passion, learn continually, seek mentors, join tech communities, be confident, embrace challenges, inspire others, and stay resilient. Diversity in tech is crucial for innovation, so your contribution matters. Pursue your dreams with determination for a rewarding tech career.
