The skills I use most in my job...relationship/people/stakeholder/influencing

- leadership
- strategy
- technology/data/digital

The most interesting thing I've worked on in my career so far...Oh goodness. I've loved it all. Working with people - they are the thing that makes technology work.

What inspired me into digital and tech...My Dad. He was a computer science teacher.

My educational background is...Started an an apprentice and long long time ago, and lots of ad-hoc learning and constant personal growth

What advice I'd give to girls thinking about a career in digital and tech...Start. Just start - it's a

brilliant career that is very creative, people focused and lots of opportunity to grow and develop new skills.
