

SUZIE AGUIZ

Job: Senior Business Development Manager

Company: Leyton

I help small businesses to access tax relief in the form of Research and Development, Capital Allowance, Land Remediation and Energy Intensive Tax credits.

Kind

Driven

Passionate

The skills I use most in my job...Business Development

- Cost analysis
- Project Management

The most interesting thing I've worked on in my career so far...Previously ran my own business

helping small creative companies to grow.

What inspired me into digital and tech...There are a million different roles within digital and tech industries that need to be better represented by women and minorities. Having an understanding of the technology to come and seeing the potential impact on society is brilliant.

My educational background is...LLB (Hons) Law

What advice I'd give to girls thinking about a career in digital and tech...In the words of Nike "Just Do It". You'll find a whole community here waiting for you. You may be in spaces as the only female in the room, but it will be your power not your weakness.
