

YASEMIN OLCAY

Job: CSO & Founder

Company: 2Customs Ltd

Based on my 18 years of professional knowledge and experience in the technology sector, I am an entrepreneur with a software solution that I think will meet an important market need in the foreign trade sector. I am partly in the role of sales channel development activities.

Diligent

Inquisitive

Tech-literate

The skills I use most in my job...Sales Management

- Team Leader
- Project Manager
- Business Development

- Marketing

The most interesting thing I've worked on in my career so far...Very comprehensive sales to Turkiye's largest conglomerates; meeting their network, cloud and security needs.

What inspired me into digital and tech...I wanted to acquire new skills and improve my technological literacy.

My educational background is...I have a bachelor's degree in Econometrics. It is a program based on statistics and data. It interprets economic phenomena based on data and mathematics.

What advice I'd give to girls thinking about a career in digital and tech...As women, we are few in the technology sector. Technology should not remain a male-dominated sector. Education in digital environments is very advanced and more accessible today than ever before. I recommend making good use of these opportunities and increase your knowledge of technology.
